

Westside Pediatrics Patient Portal

Our patient portal makes it easy to stay connected with your child's health care team. Through the portal, you can:

- View your child's medical records.
- Send non-urgent questions to your pediatrician or care team.

Important: Our portal is **not the same as Providence's MyChart**. We are not connected with Providence clinics.

How to Sign Up

1. Let our front desk know you'd like portal access.
2. You'll receive a text from our clinic with a link to the portal and a temporary password.
3. Your login will be the phone number where we sent the text.
4. Use the temporary password, then create a new password of your choice.

How to Log In Later

- Go to www.westsidepediatrics.com using a browser (Chrome on Android or Safari on iPhone).
- Click **Patient Portal** in the top right corner of the page.
- Or, if you saved the original text from us, you can use that link to go straight to the portal.

Thank you for trusting us with your child's care—we're glad you're part of the Westside Pediatrics family!
